

FAWAD TAMKANAT

Born 1962. Hyderabad, India

At the heart of his subjects, Fawad paints Hyderabad, the city he grew up in. The beautiful cityscapes of lesser-known parts of Hyderabad make his paintings distinctive. The rich visual vocabulary gives them an individualistic touch. He balances the traditional and contemporary elements in his art with panache. Experimenting with different mediums and textures and modern techniques in art and printmaking makes his work larger than life.
