Sponsored by Sublime Gallery Bangalore.

ILANGO'S ARTSPACE

A. V. Ilango has been teaching drawing and painting for more than twenty five years. It was an art class until three years ago.

In October 2004, he launched Ilango's Artspace.

This art space is not only his studio, but a place where he nurtures creativity in other minds, from little children to adults. The objective is the process of drawing and painting to express oneself in visual arts while enjoying the act of thinking and creating in an informal and personalised ambiance. Ilango says: —Art lets you be in the now. He believes in the traditional guru-sishya pedagogy. The learning is customised, based on the aptitude, sensibility and passion of the aspirants. Ilango's Artspace showcases the young artists who practice under his guidance in India and abroad.
