Born on march 11th 1985 in Bahrain I have spent most of my childhood in Bahrain with a few early years in Kodaikanal and Bangalore (India). I have been artistically inclined throughout my growing years . As a young boy I enjoyed sculpture,sketching and water colours .The darkest phase of my adulthood between 21 years and 25 years was very challenging as I faced some psychological hinderences. I have overcome most of the difficulties and have been painting for 4 to 5 years with a hieghtened perception of reality.
