My early experiments post my art education at one of the oldest art institutions in the country, Government College of Arts Kolkata, and subsequent detour of Japan as part of my artistic evolution, being highly influenced by the Japanese culture and Sumi - a very unique cultural sensibility.

Over the last 25 years and several solo art shows in various European cities, I now pursue indulgence to render European architecture and motifs in my sketches, water colours, pastel, acrylic and sumi ink expressions as an ode to the cultural influences on my artistic journey thus far.

Even Kolkata, my home turf is a reflection of European architecture and will always ring bells in more ways than one.

GALLERY TIME AND SPACE

Time and Space started as an experimental venture that sought to understand and appreciate the esoteric and dynamic ethos of contemporary art and to encourage people to participate in its magical world. Through successive solo and group shows the gallery has grown to be a significant gallery of Bangalore.

The arts are relevant to the times and a means of interpreting the inner and outer worlds. They also reveal the collective consciousness and act as instruments of awareness. They play a role in the growth process and in extending the paradigms of consciousness to new and untried realms.

Art galleries are therefore the hub and nucleus of cultural activity and the avant-garde for promoting the finest and most authentic works of art. In the collective effort of artists, galleries, and patrons of art, Time and Space works towards synthesis and synergy.

Over the years, the gallery has exhibited and celebrated the works of the masters of the 20th century. It has been a forerunner in recognising and promoting young talent.

Situated on Lavelle Road, its space has also been used for art events like art appreciation courses, artist's dialogues, group discussions, book launches, as well as music concerts, film screenings, poetry readings, and experimental theater.
